PONTA SHOWER SCREENS

PONTA GLASS SHOWER SCREENS

The Ponta collection features soft, elegant curves and incorporates the latest advances in functionality and practicality. Its timeless design makes it the perfect choice for modern bathroom spaces. This range demonstrates that elegance and functionality can coexist in perfect harmony.

JIKA perla GLASS

Ponta shower screens feature exclusive **JIKA perla GLASS** technology, which repels water and reduces the build-up of limescale and dirt. This innovative treatment makes daily cleaning easier and maintains the glass's transparency even after prolonged use.

GREATER SAFETY

The 5 and 6 mm thick toughened glass provides **greater durability** in everyday use and complies with **European standard EN 14428.** If broken, the glass shatters into small pieces without sharp edges, minimising the risk of injury and enhancing user safety.

EASY INSTALLATION

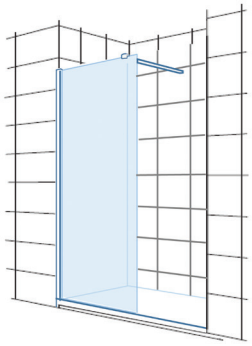

Ponta shower screens are **easy to install** thanks to a thoughtful design that simplifies the entire process. The practical installation method saves time and ensures a **safe and reliable** result.

VARIOUS SIZES

At 1950 mm high and available in various widths, **Ponta** shower screens offer a wide range of solutions to suit any bathroom space, from compact to spacious shower enclosures.

DF, FIXED SHOWER SCREEN (WALK-IN)

clear glass with JIKA perla GLASS surface treatment, polished silver profile / matt black profile
