FEATURES

Serie Mio-N excel by tability to combine nice smooth design with convenience. The Mio-N cistern with side water inlet is offered with a flushing mechanism Dual Flush 4,5/3 litres of water, without an element against the formation of condensation or without the flushing mechanism (H8297120000001) as a spare part. The cistern can be ordered with the special surface finish JIKA Perla (batch 100), which facilitates maintenance and extends lifetime. We recommend the tank with fitting for combination toilet pan Mio-N H826716###0001. We provide an extended warranty of 10 years for JIKA ceramic products. We give a 5-year warranty on the fittings placed in the cisterns.

Fixing kit: **Not included**

H8903730000001

Inlet valve, side water inlet,
metal thread

H8903740000001

Mio N

The wide range of products from the Mio-N bathroom series allows for great variability. The combination of pleasant elegance and practicality is brought by the vanity unit and washbasin from this series. Their graceful design corresponds to the Mio Rimless wall-hung toilet and also provides sufficient a storage surface. The advantage of Mio-N furniture is a simple timeless design enhanced by the absence of handles.
