FEATURES

JIKA offers ceramic solutions geared towards the needs of the technical buildings. One of them is the Domino Sensor urinal with automatic flushing and a 24V infrared sensor. It is necessary to order a power supply for the urinal, which we offer for the installation of 1-5 and for 6-9 urinals. Among the benefits of the urinal are Antibac (glazed inner circuit and waste preventing dirt from adhering) and Rimless (construction without a flushing ring). Thanks to the absence of a flushing ring, dirt and bacteria do not settle in hard-to-reach places, making the urinal easier to maintain. We provide an extended warranty of 10 years for the urinal. We recommend using a concealed module for urinals.

Fixing kit: **Included**

Height (INCH): **26 3/16"**

Inlet diameter (inch): **1.57**

Inlet diameter (inch): **1 9/16"**

Inlet diameter (mm): **40**

Length (INCH): **16 15/16"**

Power supply (V): **24**

Remote control type: **Infrared**

Water inlet position: **Back horizontal**

Width (INCH): **12 3/8"**
