H893664 PL3 dual flush plate

H893660 PL3 single flush plate, chromed
matte

H893658 PL3 single flush plate, white

PL3 single flush plate in chromed glossy is ordered separately for the JIKA concealed module. Single flush - always flushed with the same amount of water, which can be set, for example, to 4.5 liters for toilets that are certified for this volume. We recommend ordering TIGO series toilets, which provide this option.
