Modul H893658

PL3 single flush plate, white

Number of buttons: 1

PL3 single flush plate in white color is ordered separately for the JIKA concealed module. Single flush - always flushed with the same amount of water, which can be set, for example, to 4.5 liters for toilets that are certified for this volume. We recommend ordering TIGO series toilets, which provide this option.

Colours and options

H8936580000001 White
