The rectangular steel bathtub Tanza 1700 x 700 cm with a capacity of 210 liters is made of 1.8 mm sheet metal on which 3 layers of enamel are applied. The advantage of enamelled steel bathtubs is their resistance to scratches, blows and abrasions. We recommend using one-piece or two-piece screens of the Cubito series for Tanza steel bathtubs. We provide a 5-year warranty for Tanza steel bathtubs.
