H253382 Corner shower enclosure, glossy white profile
H253381 Corner shower enclosure, glossy white profile

Technical drawings

A glimpse of traditional shower faucets, this one from Lyra series remains synonymous to harmonic shapes and classic lines. Chrome-plated shower mixers with a movable spacing of 120–170 mm contain high-quality ceramic cartridges (Ø 40 mm) with the OptimEco system, which significantly saves water. The Neoperl aerator located in the faucet is made of a special material on which limescale does not settle, which eliminates laborious cleaning. Nevertheless, do not forget about daily battery maintenance, as limescale is able to settle within 48 hours! The battery does not include accessories. Take a look at the accessories chapter and choose from a range of hand showers, hoses and holders. The shower accessories of the individual series are compatible, so they can be freely combined. We guarantee a 5-year warranty on the surface of the batteries and on the ceramic cartridges. Tested for 70.000 cycles.
