VS34051C560000
Shower tray trap, Ø 90 mm, H=80mm, DN40/50, black matt

Timeless elegance and functionality meet at this Pure shower tray. The shower tray is made from premium steel up to 3 mm thick and available in white or black. Both color variants can be ordered with a special Antislip treatment, which prevents slipping in the shower. Pure shower tray is shallow, so we recommend combining with a siphon H294233 or VS34051C560000. We provide an extended 30-year warranty for Pure steel trays. Made in the European Union.
