Zeta series surprises at first glance with its simplicity, represents a quality bathroom at a good price. The floorstanding Zeta toilet without cistern is still among the standard and popular products. Due to the fixing in the floor, this toilet does not place increased demands on the statics of the wall. We recommend installing the floorstanding Zeta toilet with horizontal outlet and deep flushing with the JIKA concealed system – BASIC TANK SYSTEM or with a low-lying plastic tank, which is not included in the JIKA range. We provide an extended warranty of 10 years for JIKA ceramic products. Attention: You need to order a seat with a lid separately for the toilet.
