Technical drawings

Talas faucets represent quality at a great price. Chrome batteries are characterized by an interestingly designed lever. Thanks to the latest technologies used, they look great and will decorate your home for many years. The advantages of these faucets are high-quality ceramic cartridges (\varnothing 35 mm), high-quality certified stainless steel connection hoses and a wide range of shower accessories. For washbasin and sink faucets, there is a choice of aerator with different flow rates. We offer the Talas washbasin wall-mounted lever mixer in 3 variants: with a swivel spout of 150, 210 or 300 mm. We guarantee a 5-year warranty on the surface of the battery and on the ceramic cartridge. Tested for 70,000 cycles.
