The rectangular steel bathtub Tanza 1600 x 700 cm with a capacity of 180 liters is made of 1.8 mm sheet metal on which 3 layers of enamel are applied. The advantage of enamelled steel bathtubs is their resistance to scratches, blows and abrasions. We recommend using one-piece or two-piece screens of the Cubito or Tigo series for Tanza steel bathtubs. We provide a 30-year warranty for Tanza Plus steel bathtubs.
