Width: 460 mm.  
Height: 180 mm.

### Technical drawings

Simple clean lines and softly rounded edges are typical design features of the Deep by JIKA series. Corner washbasin from the named series with a width of 450 mm series has a beautiful simple shape, is deep enough and is a practical and elegant solution for small bathrooms or separate toilets. The small washbasin can be combined with a Rio G5/4" x DN32 (H3741R0) or a Mio siphon adjustable from 175 to 270 mm (H894249). We provide an extended warranty of 10 years for JIKA ceramic products.
