Compatible with

H831712 Wall-hung bidet

Mio-N bathroom faucet series is a popular range thanks to its elegant shapes and simple lever controls. The single lever bidet mixer with metal pop-up waste contains a high-quality ceramic cartridge (Ø 40 mm) with the EcoDisk system. If you plan to combine a bidet with an external water supply, we recommend ordering a package of Mio 3/8 "-1/2" chrome angle valves (Art. No.: H3727100040101). The faucet includes 2 high-quality certified stainless steel Tucai connection hoses. The chrome-plated surface of the battery and the ceramic cartridge are covered by a 5-year warranty. The Mio-N faucets and shower accessories are complete and 100% tested at the JIKA factory in Znojmo (Czech Republic).
