Finish: Chrome

Flow rate (l/min - 3 bar): 5.7

Installation type: Deck-mounted

Type of cartridge: Ceramic

Waste type: Waste not included

Water and energy saving

Water connection thread: 3/8"

Technical drawings

Mio-N series is a popular range thanks to its elegant shapes and simple controls. The single lever basin mixer is 270 mm high and is therefore suitable for basins. The battery has no outlet, so we recommend ordering a special LAUFEN flow plug (H898184). The basin stand lever mixer includes an economical aerator with a flow rate of 5.7 l/min, the function of adjusting the direction of the water flow by a simple touch and a high-quality ceramic cartridge (Ø 40 mm). The battery includes 2 high-quality certified Tucai stainless steel connection hoses. We provide an extended warranty of 5 years for the chrome surface and ceramic cartridge of JIKA faucets. Mio-N bathroom faucets and shower accessories are assembled and 100% tested at the JIKA factory in Znojmo.
