

Single lever bath-shower mixer with shower set: hand shower, shower hose, chrome

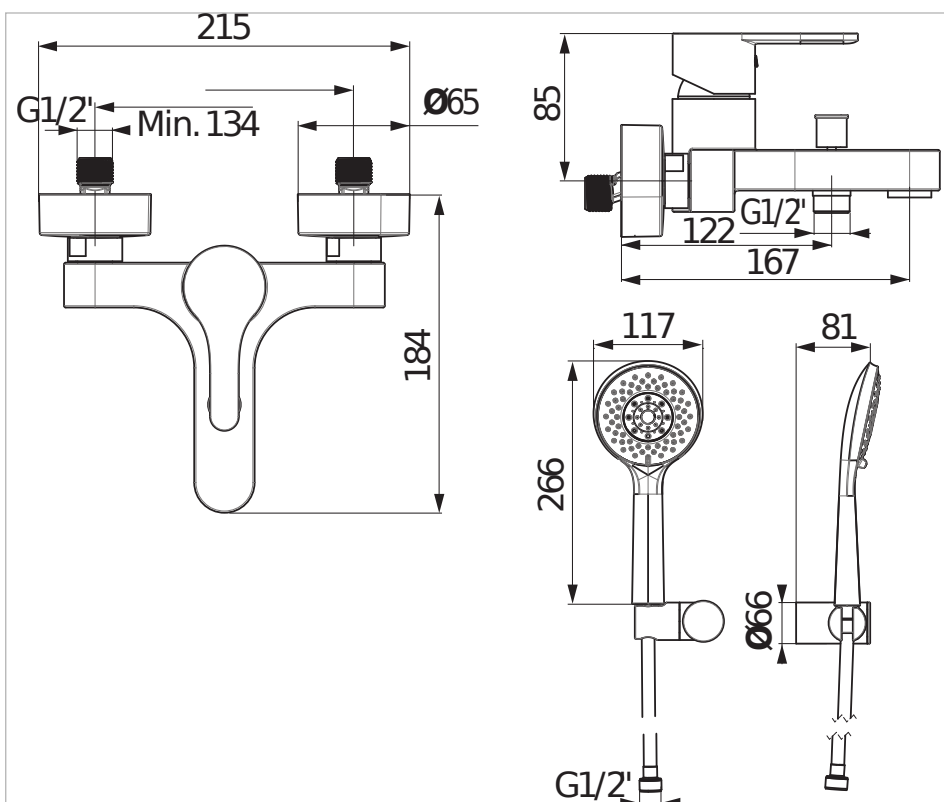

Application place: Bathtub

Faucet type: Single-lever

Finish: Chrome

Installation type: Wall-mounted

Technical drawings

Mio-N bathroom faucet series is a popular range thanks to its elegant shapes and simple lever controls. The wall mounted single lever bath-shower mixer contains a shower set (hand shower Ø 130 mm with 4 functions, holder and shower hose 1700 mm), as well as a non-return valve against the suction of polluted water back into the water supply system. The ceramic cartridge (Ø 40 mm) is improved by the OptimEco system, which facilitates the control of temperature and water flow. The perator is made of a special anti-scale material. The chrome surface and ceramic cartridges of Mio-N faucets are covered by an extended warranty of 5 years. The Mio-N faucets and shower accessories are complete and 100% tested at the JIKA factory in Znojmo (Czech Republic).
