Faucet type: Single-lever

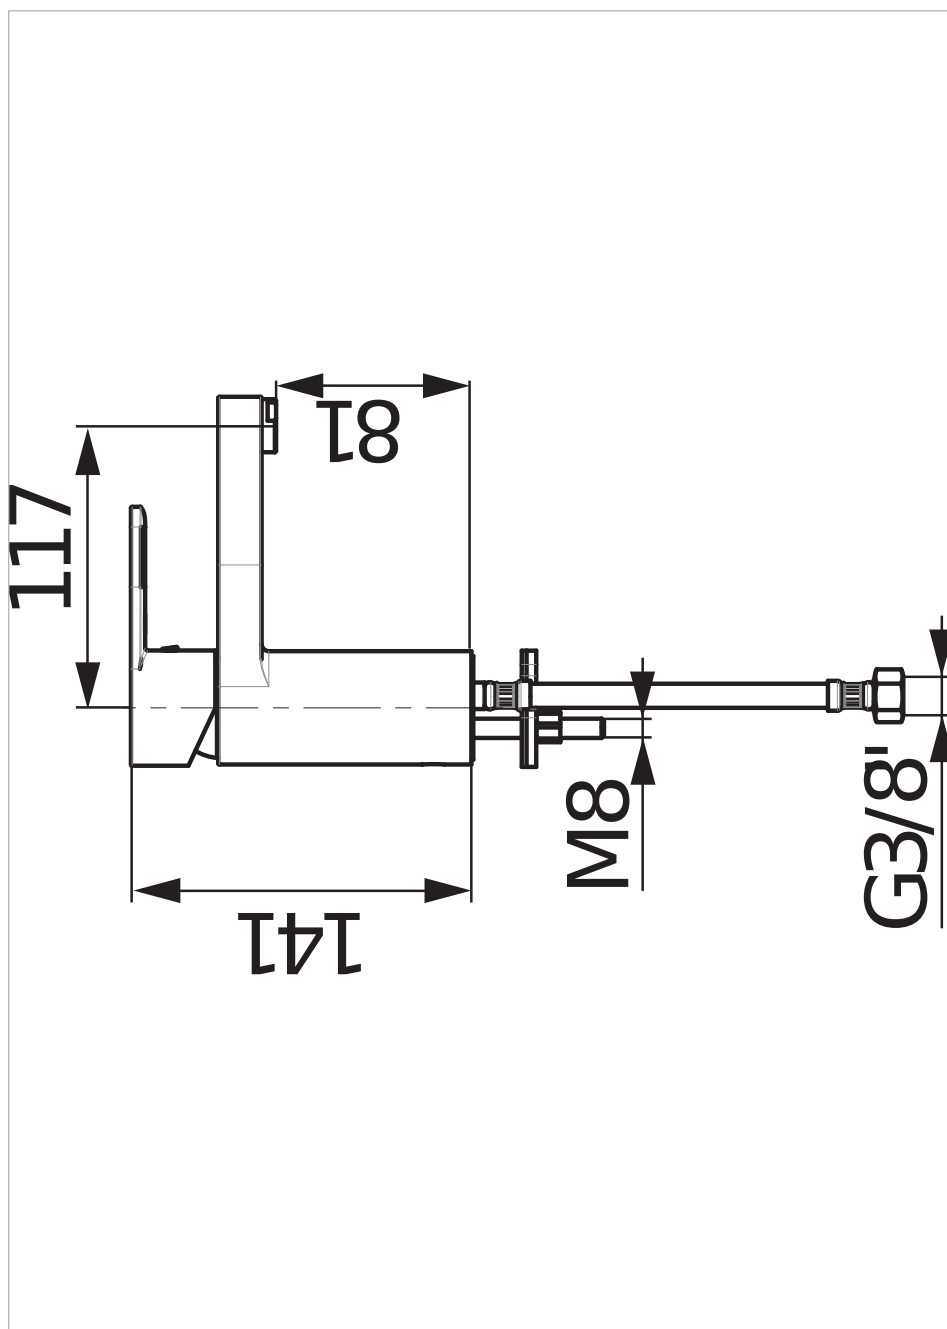

Finish: Chrome

Flow rate (l/min - 3 bar): 5.7

Installation type: Deck-mounted

Water connection thread: 3/8"

### Technical drawings

Mio-N series is a popular range thanks to its elegant shapes and simple controls. The classic stand-up lever faucet contains an economical Neoperl aerator with a flow rate of 5.7 l/min with the function of adjusting the water flow, which also significantly saves water, and a high-quality ceramic cartridge (Ø 40 mm). The battery is supplied without a waste, so we recommend ordering a special LAUFEN Click-Clack plug (H3917100040001) for the battery. The battery includes 2 high-quality certified Tucai stainless steel connection hoses. The chrome surface of the faucet and the ceramic cartridge of the faucets are covered by a 5-year warranty. Mio-N bathroom faucets and shower accessories are assembled and 100% tested at the JIKA factory in Znojmo.
