Waste type: Click-clack waste

Technical drawings

Cubito-N series is characterized by an attractive and timeless design. Thanks to the combination of a round body and a square control lever, it fits perfectly with all washbasin shapes. The unique Cubito-N series offers 3 sizes of washbasin faucets with different pedestal heights: 105 mm, the "L" size 123 mm and the "XL" model with a height of 268 mm. Thanks to the hidden Neoperl aerator with a flow rate of 5 l/min, the single lever basin mixer has the option of adjusting the water flow. For the faucet, we recommend ordering the washbasin siphon Mio 5/4" - 32 mm (H374710040001). We provide an extended warranty of 5 years for the chrome surface and cartridge of water taps. In addition, Cubito-N batteries are completely assembled and 100% tested at the JIKA factory in Znojmo (Czech Republic).
