

### Straight connection for WC module

---

#### Compatible with

---

H895652 WC system module for wallhung closets

H895651 Basic WC system for wall-hung toilets

H893644 WC FLUXOR system

The 110/90 elbow is replaced by a straight-connection of the WC module at places with an outlet located straight at the wall rather than in the floor. The straight connection can also be used for these modules: Basic WC system, WC system or WC Fluxor system. For concealed module mounting instructions please see our download documents.
