

Countertop 610 mm for washbasin bowls

The countertop Mio-N is offered with no cut-out (batch 000) or with cut-out (batch 001). For the type of countertop without the no cut-out, the cut-out for the siphon is made by the plumber when installing the bathroom. The countertop is produced in two versions, classic white or in a pleasant ash wood pattern, which perfectly underlines the harmony of the relaxation area. We recommend to combine the countertop with Mio vanity units H41J715 and washbasin Cubito Pure H818423 or H818420. We provide a 2-year warranty for JIKA bathroom furniture, manufactured exclusively in the Czech Republic.
