H3812150040001 Front towel holder for washbasin 1000 mm, stainless steel

Tigo means cleanliness and elegance. We offer a modern asymmetrical washbasin with a width of 1000 mm and a depth of only 385 mm with a tap hole on the right, so that even in a small bathroom it brings the comfort of a larger private space. You can also install the washbasin with a stainless steel front or side towel holder. Attention! You cannot place the front and side mount at the same time. We recommend the Mio 5/4"-32 mm siphon (H374710) for the washbasin. The JIKA brand provides a 10-year warranty on ceramic products.
