

Single lever basin mixer, high rise L=220 mm, without waste, Cold Start, chrome

Application place: Basin

Faucet type: Single-lever

Finish: Chrome

Installation type: Deck-mounted

Waste type: Waste not included

Compatible with

H3747100040001 Siphon, chrome, brass

Technical drawings

Mio Style series is a popular range thanks to its elegant shapes and simple controls. The single lever basin mixer with high rise 220 mm is intended for washbasin bowl, contains a high-quality ceramic cartridge (\varnothing 35 mm) and an economical Neoperl aerator with a flow rate of 5 l/min. The aerator is made of a special material against limescale. Another advantage of the faucet is the switches, i.e. the flap against the back suction of polluted water and the Cold Start function, which means that by opening the lever of the faucet in the middle position, cold water starts to flow. The battery is supplied without drain. We recommend ordering the Click-Click basin waste (H3917100040001) and the Mio Style G5/4" \times DN32, basin siphon (H3747100040001). Mio bathroom faucets and shower accessories are assembled and 100% tested at the JIKA factory in Znojmo (Czech Republic).
