Technical drawings

Thin, easy-to-remove Mio-N duroplast seat and cover meets all requirements for a modern product. High-quality, durable and dimensionally stable material, simple yet elegant and practical shape of the seat, complemented by stainless steel hinges and an ingenious Slowclose mechanism that slows down the folding of the seat. The seat is suitable for the wall-hung toilet Mio-N. This year's novelty is the new color design black matte and white matte. Available 1Q 2024.
