

PL3 single flush plate, chromed matte

Number of buttons: 1

PL3 single flush plate in matt chrome is ordered separately for the JIKA concealed module. Single flush - always flushed with the same amount of water, which can be set, for example, to 4.5 liters for toilets that are certified for this volume. We recommend ordering TIGO series toilets, which provide this option.

Colours and options

H8936600070001 Chromed matt
