The Lyra Plus series remains synonymous to harmonic shapes and classic lines. The floorstanding WC combi with a ceramic cistern is the best way to play out the design of the popular series. Its advantage is the easy accessibility of the flushing mechanism. The WC combi with horizontal outlet offers with either bottom 1/2" (batch 242) or side 3/4" (batch 241) water inlet and washdown system. We provide an extended warranty of 10 years for JIKA ceramic products. Attention: A seat with a cover must be ordered separately for each WC combi.
